

[REDACTED]
Deputies' Meeting

Tuesday, 16 September 1952

PRESENT: General Smith, Messrs. Dulles, Wisner, Becker, Hedden, Earman, Col. White

General Smith:

HR70-14

b. Noted the item in today's Log concerning a proposal to establish a "National Security Lecture Series" and stated we did not have sufficient personnel to allow attendance at such lectures and our people could spend their time more profitably on the job. After some discussion wherein Mr. Becker noted that he had for study Matt Baird's proposal on this matter and would furnish his comments to the DCI, the Director asked Col. White to insure that this plan was brought to his attention for his consideration.

c. Referred to cable OUT 54083 discussed at yesterday's Deputies' Meeting and asked Mr. Wisner if this matter had been brought to his attention. Mr. Wisner stated that it had. After some discussion, the Director stated that (1) it must be forcibly brought to the attention of the "technicians" that they have no authority to dispatch cables involving National policy unless prior approval had been received from the DCI and, in his absence from the city, the D/DCI; (2) if necessary, he would personally discuss his views on this matter with those concerned.

d. Referred to an outgoing cable to the [REDACTED] concerning Headquarters' views on [REDACTED] and stated while he believed he understood the contents of this cable there was a strong possibility that "the people on the other end might not" and, in fact, the cable in question either said too much or too little. Mr. Wisner noted he had not had an opportunity to review this message and undertook to do so.

Mr. Dulles:

Mr. Dulles (Cont'd.)

[REDACTED]

c. Raised the question of the responsibility of disseminating PSB decisions made at the regular luncheons and noted that a case in point was the decision made concerning release of information on the forthcoming A-bomb tests to the AEC. The Director stated in this particular instance the information in question should be furnished the AEC by Mr. Lay since it involved a matter of National policy. (NOTE: Mr. Dulles undertook to discuss this with Mr. Lay and subsequently advised Mr. Earman that Mr. Lay had undertaken to forward the information in question to [REDACTED]. In regard to dissemination of other decisions reached at PSB luncheons, the Director stated this should be the responsibility of either the Acting Chairman or the Director of PSB.

d. Noted that he had seen Paul Hoffman [REDACTED] and they would be happy to have CIA brief their people going abroad. In this connection, Mr. Dulles also noted that Messrs. Hoffman [REDACTED] had offered to furnish us a list of their trainees [REDACTED] who might be prospective employees for CIA.

e. Briefly reported on a discussion held at State concerning the proposed RFA radio station to be established [REDACTED] and stated that while State had no objection to our beaming broadcasts to the "overseas Chinese" and China proper, they were concerned over broadcasts to Indochina, Thailand, etc. emanating from a station [REDACTED]. After some discussion wherein it was noted it was most difficult to buy radio time in the Far East, the Director stated he would not approve the establishment of an RFA station unless the Department of State pressed us and stated that the establishment of such a station was urgent and necessary. Mr. Dulles undertook to pass this along to John Allison.

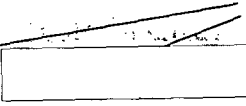

Mr. Wisner:
